# FRENCH EXPERTISE IN SUPPORT OF EDUCATION AND THE PROMOTION OF FRENCH IN EUROPE AND AROUND THE WORLD

FRANCE ÉDUCATION INTERNATIONAL

## ABOUT US?

France Éducation international is the public agency for international cooperation in education and languages, operating under the authority of the French Ministry of National Education and Youth.

Its mission supports France's strategic priorities in educational and linguistic cooperation around the world. The institution works across three complementary fields:
– promoting the French language (teacher training, expertise, certification),
– supporting mobility for students and education professionals,
– and strengthening education systems through international cooperation.

France Éducation international also acts as a centre for knowledge and reflection. It hosts the Laboratory for Innovation and Resources in Education (LIRE) and publishes the *Revue internationale d'éducation de Sèvres*, a globally recognised comparative journal.

Its work is carried out by a team of over 250 staff and a network of more than 1,000 experts and partners. Headquartered in Sèvres (Paris region), the agency also operates a centre in La Réunion.

FRANCE ÉDUCATION INTERNATIONAL

# OUR MISSION

- Promoting inclusive and high-quality education for all.
- Supporting the teaching of French in Europe and around the world.
- Assessing and certifying language proficiency.
- Enabling international mobility for students and professionals.
- Contributing to the development of digital and educational technologies.
- Advancing multilingualism and promoting French-speaking cultures.
- Providing educational resources and publications.

# AREAS OF EXPERTISE

- Strategic support to education system reform (primary, secondary, higher education), governance, curriculum design, and technical and vocational training (TVET).
- International capacity building for education leadership, support for curriculum reform, training engineering, and quality assurance for institutions.
- Design, delivery, and administration of language tests and certifications in French, English, and Arabic.
- Professional development for French as a foreign language teachers and teachers of non-linguistic subjects, including pedagogical resource support.
- Management of mobility programmes for students, teachers, and education staff.
- Expertise in language assessment.
- Recognition and evaluation of foreign diplomas and qualifications.

FRANCE ÉDUCATION INTERNATIONAL

## Laboratory for Innovation and Resources in Education (LIRE)

LIRE supports public policy innovation and promotes educational digital tools and practices. It fosters international openness within the French education system. Its documentation centre is available both in Sèvres and online via the LISEO portal.

## *Revue internationale d'éducation de Sèvres*

This bilingual, peer-reviewed publication offers comparative insights into global education. Each issue focuses on a key topic in educational debate. With over 1,400 contributors from 125 countries, the review is a leading reference in international education. Available in print and online via OpenEdition.

## Hosting of conferences and seminars

Held in the historic former royal porcelain factory in Sèvres, France Éducation international regularly hosts seminars and international events dedicated to educational policy and innovation.
