FRANCE ÉDUCATION INTERNATIONAL

**Serving education and the
French language worldwide**

WHO ARE WE?

France Éducation International's objectives are part of the government framework of political priorities regarding international cooperation.

The institution coordinates or supports the activities connected to international education projects carried out by both the French Ministry of National Education, Youth and Sport, as well as their partners. It is a leading player for Francophonie in Africa and adopts a co-constructive approach with educational institutions in countries that benefit from expertise projects and tailor-made training.

Finally, France Éducation International strives for France to be an international benchmark in education, based on international comparisons.

**FRENCH
EXPERTISE
SERVING
EDUCATION
AND THE FRENCH
LANGUAGE IN
EUROPE AND
WORLDWIDE**

Revue internationale d'éducation de Sèvres

With a comparative approach and from a research perspective, each issue tackles a theme that is the subject of debate. With 1 200 authors in 110 countries, the journal has become an encyclopaedia of education around the world. Published

in both paper and digital format, the issues are available on **OpenEdition**.

Laboratory for Innovation and Resources in Education (LIRE)

LIRE supports public action's transformation and promotes the application of digital technology in

education. It furthers the international outreach of the French educational system through its documentary resources, available at Sèvres and on LISEO portal.

<https://liseo.france-education-international.fr/>

Hosting conferences and seminars

In the historic setting of the former royal porcelain factory in Sèvres, France Éducation International regularly hosts events organised by institutions in the field of education.
